

WHITE PAPER

CRYPTO INC GOLD (INBG)

CRYPTO INC GOLD:

An electronic means of payment for the purchase of user-to-user goods and services.

Developer: Israel José Navarrete Bedoya

V. 2.0

Acknowledgment. I want to give thanks first to the owner of this project, GOD, a project created to help in this time of post pandemic to all humanity that lost family, jobs, businesses and faith in themselves, the collaborative economy, thinking about doing good to each other will make us grow exponentially; I want to thank my wife Yamile Barbary, my friend, my partner, the one who was in charge of setting the bar higher at every moment, the mother of my beautiful and beloved son, Salvatore Navarrete Lopez, heir to continue with this project; My mother and my father who never stopped believing in me; GOD and all of them who in my difficult moments were the ones who did not abandon me, thank you very much; I thank my partner, Erick Medina Maldonado for believing in me and in this project; As well as all those who criticized me, cheated, swindled, prosecuted, judged, played to be my friends, to the officers of the Navy of Ecuador who made the decision to take me out of my job, in which I gave my life for more than 20 years, I knew that this was the moment, that I needed this to realize my true potential and value them, sometimes life must hit you hard and take you out of your comfort zone, THANK YOU to all of them too, who became the engine to lift me up and persist until I achieved this dream.

Abstract. Crypto Inc Gold, is a purely electronic payment method on the blockchain, 100% premixed that would allow online payments to be sent directly from one user to another, without having to go through a financial institution, 100% decentralized, Gold backed token, becoming a security token, all hodlers will have an equivalent share in gold after the first 3 years of mining activity; its exchange will be for every 20000 tokens Crypto Inc Gold to 1 gram of gold, it is not an obligation to wait the 3 years to exchange it in gold, since within our road map, it is a goal to enter the main exchanges in the world of cryptocurrencies for trading, as well as the usability in the exchange of fan tokens of the main local and international soccer teams, exchange for digital and in-person entertainment, exchange in the tourism industry, with exclusive packages launched by the company Crypto Inc SAS, as well as future alliances with digital commercial chains, goods and services, giving the benefit to the community to monetize their tokens in real time.

The company also offers the possibility of trading, as well as the usability in the exchange of fan tokens of the main local and international soccer teams, the exchange for digital and in-person entertainment, exchange in the tourism industry, with exclusive packages launched by the company Crypto Inc SAS, as well as future alliances with digital commercial chains, goods and services, giving the benefit to the community to monetize their tokens in real time

From the 4th year our token will have the usability to buy in real time gold at a publicly traded price, 24 carat gold with 999.9 purity; becoming a powerful digital asset.

Our Token Crypto Inc Gold, will have as a standard within its sustainability the burning of tokens, giving hodlers the ability to monetize their investments in the short, medium and long term, Win to Win is our goal for the crypto community.

1. Introduction

For years commercial transactions have evolved both in the traditional and digital financial system, but every year that passes, the customer suffers huge increases that only benefit banking institutions, not thinking about the main asset such as customers weakens the reliability in each transaction, the world of cryptocurrencies have come to evolve hundreds of years of the way to transact, being decentralized, shipping costs is almost zero and this allows the community to become strong and increase their interest every day that passes. It is no secret that for 10 years the traditional financial system has tried to eliminate the world of cryptocurrencies, affecting the crypto community every time in the descriptions of bank transactions they find the word "Bitcoin" or "cryptocurrency" freezing accounts, not knowing that this only strengthens the crypto community and opting for other ways such as exchanges for fiat exchange; However, today they accept their defeat in silence and accept that this is the new era, so today they participate in large investments in Bitcoin and other cryptocurrencies.

2. Usability

Crypto Inc Gold, is a versatile token, although it is gold-plated, for those who acquire it, its main feature is to be an electronic payment method, with usability to buy products, services, entertainment events in person, digital, comedy shows, hiring artists, actors, actresses, sports events, acquisition of fan tokens of the main local and international soccer teams, business trips, resorts, cruises, hotels, both from Crypto Inc and strategic allies; the idea is to add, as the community grows, strategic commercial allies that accept our token for the acquisition of products and services, the payment method is secure and guarantees the P2P smart contract.

3. Transactions.

We define Crypto Inc as a token, an electronic coin as a chain of digital signatures. Each owner transfers the coin to the next owner by signing with his private key from the previous transaction and the public key of the next owner and adding these to the end of the coin. A beneficiary can verify the signatures to verify the chain of ownership. d.

4. Exchange

Crypto Inc Gold, by having a gold backing, achieves the financial safeguard of the hodlers, it becomes an insurance against financial, economic, monetary and political crises, it does not generate VAT or taxes in its purchase, tax advantages, having the opportunity to have gold in their hands; It is not mandatory to exchange it in gold, the crypto community can buy and sell products and services of the company and strategic allies, our community will be able to trade, and in this way to officially launch it in the most famous and prestigious exchanges in the world, so its price gets a considerable increase, achieving acceptance for the crypto community.
